

transportation

F&C Logistics operates as both an asset carrier and non asset based transportation provider. Our transportation beginnings take us to the core of successful supply chain solutions. We take pride in moving your products through the supply chain timely, safely and cost effective and giving you the ability to track each shipment to final destination.

Local Deliveries – From the warehouse to your customer, F&C Logistics will provide a local transportation solution via bobtail and lift gate, flatbed or dry van.

Over The Road (OTR) – F&C Logistics has a vast carrier base allowing our customers to escape the hassle of finding a carrier to handle your truckload shipments.

Freight Forwarding - F&C Logistics has established a network of agents in over 125 countries across the globe. It is our goal to become your single source solution in moving your products across your supply chain. One source, every mode of transportation, F&C LOGISTICS "A TOTAL LOGISTICS PROVIDER"
