

Consistent WinnersYou and Maxum HA!

Consistency is the key...it is an adage that is true about competing and true about supplements too. That is why we have taken the guesswork out of supplementing hyaluronic acid by precisely blending and pelletizing Maxum HA to lock in 30 mg of hyaluronic acid per serving. Consistency you can rely on from the first serving to the last!

"I know that if you're going to win, you have to take care of your horse. I have teamed up with Prime Performance Nutrition and my horses feel stronger straight to the finish line."
